The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 10, 15, 18, 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Nayak (US-6234416). Note the engaging portion 211 or 1107, the reel gear 207 or 1105, the braking member 212 or 1109, the releasing member 217 (at the tip) or 1114, the guide portion/boss portion around hole 209 or 1104, and the guide member 217 or 1113. The guide member impedes rotation of the releasing member by frictional contact with the guide portion.

Claims 2-9, 11-14, 16, 17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims (in conjunction with an appropriate terminal disclaimer).

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-19 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 of copending Application No. 10/781,895. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to one of ordinary skill in the art that the instant claims 1-19 are encompassed by claims 1-14 of the copending application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: "operation-push surface" (claim 19).

Applicant's arguments filed 1/3/06 have been fully considered but they are not persuasive.

The guide portion/boss portion of Nayak is disclosed at least by the figures. It appears that clearances between elements in the figures have been exaggerated for illustrative purposes as is usually done with patent figures; at least figs. 4, 5, and especially 9B of applicant's own figures also similarly show a clearance between the releasing member 86 and the boss portion 52. It should be noted that Nayak discloses protrusion 217 as "fitting into the aperture 209" (column 5, line 58) and that the

Art Unit: 3654

elongated guide/boss portion serves to guide the movement of the protrusion 217 via engagement. It should also be noted that all elements of the cartridge of Nayak are "engaged with each other".

Applicant's remarks in the first paragraph of page 15 are deemed to be pure speculation since there is no such teaching anywhere in Nayak.

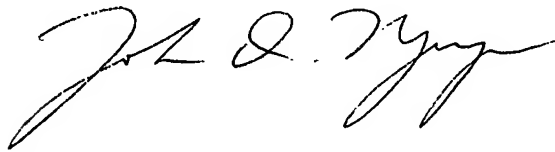

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
